## PROFESSIONAL EXPERIENCE

### AT&T

Dec 2024 – Present

#### Fullstack Developer

- Built UI/UX, high volume customer-facing, multi-tenant, user-centric reusable ReactJS components on all AT&T ([www.att.com/support](http://www.att.com/support)) pages.
- Designed and deployed mobile-responsive, WCAG-compliant UIs with HTML5 and CSS3, increasing accessibility and usability by 15%.
- Revamped AT&T's software architecture using ReactJS DOM, improving load times by 30% and enhancing user satisfaction by 20%.
- Integrated interactive front-end components with Node.js backend services, reducing data handling errors by 25%.

### City of Charlotte

Sep 2024 – Dec 2024

#### Senior Software Developer

- Led the development of mobile and web applications with React.js, and Apollo GraphQL, with AWS and Git, enhancing access to essential services for 100K residents of Charlotte in utilities, transportation, and emergency response through process automation.
- Increased user engagement by 25% with the development of more than 12 feature-rich React Native mobile app for both iOS and Android users.
- Architected cloud-based mobile solutions using Node.js, React, and AWS, improving customer satisfaction by 20%, reducing time to market, and enhancing response times and internal communication for city departments, while ensuring system security and high availability.

### Endeavour, Edged Energy

Jun 2023 – May 2024

#### Data Engineer

- Developed new user-facing features using React.js, resulting in a 30% improvement in user experience and engagement within six months.
- Ensured the technical feasibility of UX/UI designs, resulting in a 20% increase in design implementation accuracy.
- Designed and implemented REST APIs with Node.js, increasing the efficiency of data retrieval by 40%.

### California State University

Nov 2022 – Apr 2024

#### Frontend Web Developer

- Built reusable components and front-end libraries using React and JavaScript to reduce development time by 2 weeks per project.
- Increased user engagement by 25% with the development of more than 12 feature-rich mobile app for both iOS and Android users.
- Reviewed and responded to metrics and analytics to iteratively refine designs, make informed design decisions, and adhere to WCAG compliance.
- Conducted weekly mentoring, troubleshooting and code review sessions, with junior developers, built a continuous and collaborative learning atmosphere, provided feedback detailing ways to improve their code optimization and performance.

### Accenture

Sep 2019 – Jul 2022

#### Application Development Analyst

- Engineered a customized user interface used Figma tailored to individual customer needs, ensuring seamless adaptability and reusability, elevated code quality through comprehensive peer reviews, resulting in a 40% reduction in bug reports and a 25% growth in user satisfaction metrics.
- Designed microservices architecture, RESTful APIs for seamless data retrieval on AT&T web applications, resulting in 50% increase in API response.
- Implemented over 20 custom animations and transitions, which increased user session duration by an average of 20% across all mobile platforms.
- Conducted a comprehensive code audit and optimization, leading to faster app performance and a more fluid user experience.
- Utilized modern front-end build pipelines and tools such as Babel, Webpack, and NPM, reducing build time by 4 minutes.

## CERTIFICATION

AWS Cloud (Amazon Web Services) – Developer Associate

## SKILLS

- Languages and Frameworks:** JavaScript (ES6/TypeScript), React.js, React Native, Node.js, Next.js
- Web & API:** HTML/HTML5, CSS/CSS3, SCSS, Tailwind.css, GraphQL, HTTP, REST
- Database:** SQL, PostgreSQL, Cassandra, MongoDB, Redis cache
- Cloud:** AWS, GCP, Azure, Ansible, Terraform
- Testing:** Test Driven Development (TDD), Jest, Mocha, Cypress, Selenium, Mockito, Junit, SoapUI, Postman
- Version Control & DevOps Containerization:** Git/GitHub, Jenkins, Maven, Sonar, Docker, Kubernetes

## EDUCATION

- California State University, Los Angeles, CA, USA**

Master of Science in Computer Science

## PROJECTS

### AT&T – CMS Integration with React and CMS:

- Integrated a frontend React application with AEM, headless CMS for content management capabilities.
- Led collaboration with onsite and offshore teams to align with client requirements, driving successful project integration.

### AT&T – User Interface:

- Designed and developed UI component libraries for AT&T users ensuring branding guidelines throughout the portal, aligning with AT&T's standards.
- Conducted code reviews to ensure code quality, maintainability, and adherence to coding standards.
- Mentored junior developers, fostering their growth and proficiency in frontend development techniques. state management using Redux.

## AWARDS & INVOLVEMENT

- Won **Accenture Celebrates Excellence Award** for remarkable year-round agility and customer service.
- Selected as **Hour of Code Mentor**, taught algorithms, data structures, distributed systems, machine learning and problem solving.
- Appointed as **Society of Women Engineers (SWE) Conference Open-Source Day Mentor**, mentored 25 attendees.
